Stockton Blvd. Safety and Transit Enhancement Project (STEP)

Mikki McDaniel provided an update. The project is a multimodal and Bus Rapid Transit (BRT) partnership between the city of Sacramento, Sacramento County and Sacramento Regional Transit (SacRT). The goals of the project are to improve safety, improve multimodal infrastructure, enhance transit service and customer experience, support economic development and deliver a fiscally responsible project. The project is currently in the alternatives analysis mode. The goal is for the street to be comfortable and accessible for everyone, no matter their mode of travel or abilities. The final design may include bike lanes, wider sidewalks, improved pedestrian crossings, and dedicated bus lanes. Ms. McDaniel pledged to provide project updates as warranted. There is currently no funding identified for construction.

Unfinished/New Business, Announcements

There was no unfinished or new business.

Proposed Topics for Next Agenda

SACDOT staff will provide updates on a number of projects which are seeking grant funding.
