Letter of Support: Stockton Boulevard Complete Streets

The Sacramento County Disability Advisory Commission Physical Access Subcommittee (DAC PASC) supports the Active Transportation Program (ATP) Cycle 8 Grant application for the Stockton Boulevard Complete Streets Phase II project.

The project will seek funds for the construction of bicycle and pedestrian improvements along Stockton Boulevard from Florin Road to Mack Road/Elsie Avenue.

The DAC PASC reviewed and recommended the project in the May 19, 2026 meeting and strongly supported this SS4A application. The Project will significantly reduce roadway fatalities and serious injuries along Stockton Boulevard by allowing for separation between vehicle and pedestrian traffic. The project will also support ongoing efforts to provide transportation equity, enhance safety and security for all travel modes, and reduce reliance on vehicle travel.

Sincerely,

Gene Lozano
DAC PASC Chairperson
