Letter of Support: Greenback Lane Complete Streets Improvements

The Sacramento County Disability Advisory Commission Physical Access Subcommittee (DAC PASC) supports the Sacramento Area Council Of Governments Next Generation Solutions and Clean Air grant application for the Greenback Lane Complete Streets Improvements project.

This project is seeking funds for the construction phase of bicycle and pedestrian improvements which include landscaped separated sidewalks, stripe buffered Class II bike lanes, bus stop improvements, medians with landscaping, signalization of Chestnut/Greenback Lane, street lighting, and undergrounded utilities.

The DAC PASC reviewed and recommended the project in the May 19, 2026 meeting and strongly supported this Next Generation Solutions and Clean Air application. Project improvements will reduce speeding, address long standing sidewalk gaps, and create safer conditions for all users, including older adults, youth, and people with disabilities.

Sincerely,

Gene Lozano
DAC PASC Chairperson
